Benefits Administration

Premium Increases

Break free with Employer Advantage Insurance

At EAI, we've done our homework and found ways to make dealing with employee benefits easier. From reducing premiums to online enrollment and consolidated benefits, we work to take the hassles away and allow you to focus on your job. Some of the issues we address are:

Rising Healthcare Costs – We use **innovative plan designs** and **products** to help our customers keep their **healthcare affordable**. We analyze your organization and current plans to determine the **right option for you**. We help you **implement, communicate, and manage** the plan that fits best.

Employee Communication - With so many benefit options available we help you with all aspects of your benefits package. Strategic partnerships with leading providers allow us to provide our clients with **reduced premiums for online systems, benefit booklets, and personal employee benefit training**.

Unstable Rate-renewals - We understand that **rate stability is just as important as rate savings**. That is why we have partnered with leading

insurance carriers to provide clients with **stable and predictable rates** for benefits, ranging from life and disability insurance, to health and vision coverage.

Overwhelming benefit options and products – Not every benefit suits every company and we will work to provide the protection and coverage **most important to your employees and organization**, thus, reducing administrative costs and simplifying benefits communication. By eliminating insurance plans that overlap protection we save employees and employers premiums on unnecessary products.

Enrolling Benefits – Too many paper applications, multiple enrollment methods for different carriers...by using online enrollment systems, customized applications and non-commissioned benefit enrollment staff our clients have enjoyed greater **employee satisfaction** and **substantial savings**.

Servicing Benefits – By streamlining and simplifying benefits our clients gain from **easier internal and external service** for group and voluntary benefits. EAI is your source to benefits competence, helping organizations to implement effective and cost efficient methods to manage benefits.

Benefits Administration – By implementing EAI solutions, Human Resources will spend **more time on strategic initiatives** and less time managing day to day benefits issues.

Premium Increases – We have a very high success rate in **reducing the cost of benefits**. Our clients **save** an average of **30% of premium** on insurance plans designed and implemented by EAI.

bro-ker (brō'kər) n. 1. One that functions as an intermediary between two or more parties in negotiating agreements, contracts, purchases, bargains, or the like.

Employer Advantage Insurance, LLC (EAI) is a broker in the truest sense of the word, providing custom solutions to specific needs of clients.

Through years of experience and established **relationships with service and product providers** we bring **real solutions** to our customers, to the struggles organizations face in extending employee benefits. Our approach is simple - we understand that **every organization is unique**. We work with customers to determine the specific needs of the organization and employees and provide them with the insurance protection, administration and services that are **most important to them**.

By delivering custom programs and services, rather than the same basic vanilla options, premiums are reduced, benefits are simplified and better service is attained.

At Employer Advantage Insurance we are **sophisticated and experienced** enough to make a difference but **small enough to care!** Call us today to find out how EAI can help you build a bridge to better benefits.
